

STIMPOD USE  
TESTIMONIALS

"I've treated 20 conditions that I've never treated before. I get referrals from a neurologist for Trigeminal Neuralgia, Bell's Palsy, Horner's syndrome, anything that's quote-unquote 'weird' and they have no idea what to do other than prescribe Gabapentin, which doesn't work.

There are no other devices out there that do anything close to this."

**Dr Kieran Collins**  
New Jersey, USA

"There's nothing else that you have in your quiver that's going to treat neuropathy the way Stimpod does. It's not a matter of having a better treatment for conditions that you already treat, this is a device that will let you treat conditions that you couldn't treat in the past, and it makes a significant difference to a practice. I generate a significant amount of income as a result of being able to use this premium treatment."

**Dr Richard Kowal**  
New York, USA

"The Stimpod is highly effective for post-herpetic pain. I've had seven or eight cases and 100% I've managed to solve their problem.

The results are absolutely incredible. The Stimpod is a very fast-acting treatment. It shouldn't be a last stage treatment, it should be the first stage treatment. It should really be regarded as a breakthrough treatment for peripheral nerve pain."

**Keith Atkinson**  
Horsham Nerve Pain Practice, UK

"The Stimpod NMS460 is definitely the most effective modality I have used on patients with certain conditions. Nothing is a cure-all, but if I had one device to take on a medical mission trip it would be the Stimpod!"

**Dr. David Collins**  
Oklahoma, USA

"The Stimpod NMS460 has far exceeded my expectations on what a device is capable of in helping my patients achieve rapid pain relief and recover from a broad spectrum of neuropathic signs and symptoms. I highly recommend that all Chiropractors include it in their arsenal as this is a game changer."

**Dr. Stuart Humberg**  
Tennessee, USA

NON-DRUG SOLUTIONS  
FOR CHRONIC PAIN

TARGET. LOCATE. TREAT.

Chronic Intractable Pain  
Post-Surgical Pain  
Post Traumatic Acute Pain  
Pain Control due to Rehabilitation

THE WORLD'S 1ST  
TRANSCUTANEOUS  
PRF SYSTEM

STIMPOD  
NMS460

Non-Invasive  
Pulsed Radio Frequency Therapy  
for Chronic Pain Treatment

PRF THERAPY  
OVERVIEW

NON-INVASIVE PULSED  
RADIOFREQUENCY THERAPY

The Stimpod NMS460 provides a non-invasive, non-drug solution with no side effects and rapid onset of action at a fraction of the cost of comparable treatments.

TARGETED TREATMENTS  
FOR CHRONIC PAIN RELIEF

With our electromagnetic therapies we can precisely target the biological processes that underlie pathological states.

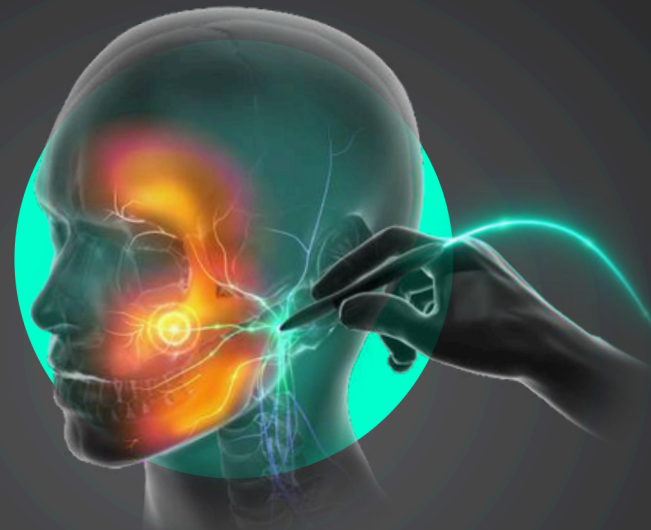

EXPAND YOUR SCOPE  
OF PRACTICE

The Stimpod NMS460 system assists practitioners in offering an electromagnetic therapeutic solution to patients suffering from pathologies that are notoriously difficult to treat.

PATENTED WAVEFORM  
TECHNOLOGY

The Stimpod NMS460 provides a non-invasive, non-drug solution with no side effects and rapid onset of action at a fraction of the cost of comparable treatments.

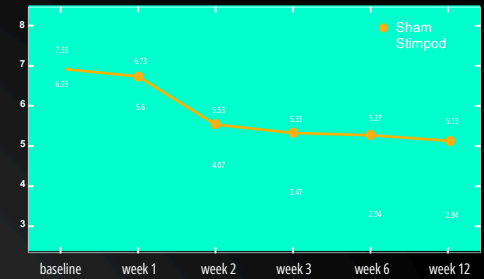

PRF THERAPY  
PROTOCOLS

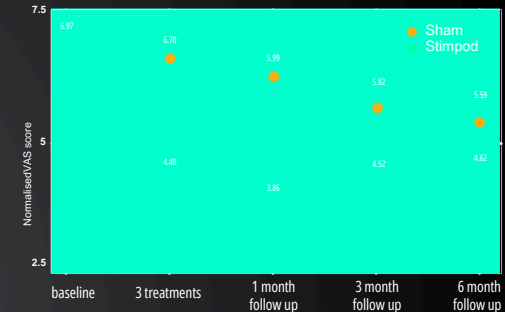

- Anterior Knee Pain
- Diabetic Neuropathy
- Migraines
- Radiculopathy
- Sciatica
- Tennis Elbow
- Trigeminal Neuralgia...

INDEPENDENT CLINICAL  
TRIAL RESULTS

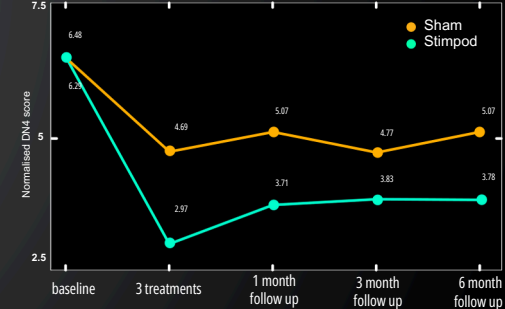

chronic headache: Pain scores over 12 weeks

diabetic neuropathy: WORSE PAIN SCORES

diabetic neuropathy: DN4 SCORES

TRIGEMINAL NEURALGIA: BPI Scores
